IN-LINE CABINET CENTRIFUGAL EXHAUST FAN DATA SHEET:
1. Acoustic insulated double-walled cabinet with backward-curved high-efficiency centrifugal impeller.
2. Sound absorption lining: 25mm high-density acoustic fiberglass blanket achieving quiet operational noise <= 48 dBA.
3. High-efficiency IP55 dust and moisture sealed motor with self-resetting thermal cut-out protection.
4. Built-in gravity back-draft damper preventing cold air or odor back-flow when unit is powered off.
5. Modulating speed control integrated with restroom occupancy sensors for energy conservation.

Fan Tag	Exhaust Zone	Flow m3/h	Static Pa	Noise dBA	Motor Wattage
EF-TOI-01	VVIP Dignitary Restrooms L1	1,800 m3/h	220 Pa	42 dBA	380 Watts
EF-TOI-02	General Assembly Restrooms L1	3,200 m3/h	260 Pa	46 dBA	650 Watts
EF-TOI-03	Press & Media Restrooms L2	2,400 m3/h	240 Pa	44 dBA	480 Watts
EF-ELEC-01	Substation Battery Exhaust	1,500 m3/h (Flameproof)	200 Pa	48 dBA	550 Watts (Ex-d)
